# INDEX

VOLUME XXX, 1963

**Subjects and Titles**

Ability of Different Clinical Examination Techniques to Diagnose Caries Prevalence: 3

Abnormal Deglutition—Diagnosis and Treatment: 256

Abstracts: 101

American Academy of Pedodontics—Constitution and By-Laws: 109

American Board of Pedodontics—Announcement: 71, 228

Annual Meeting Program, 1963: 103, 181

Atlantic City Convention—Story: 260

Calcium Metabolism During Pregnancy: 93

Cause of the White Opaque Areas in Permanent Teeth?: 154

Certificate of Merit Award Winners, 1963: 243

Comparative Clinical Study of Three Dentifrices: 17

Constitution and By-Laws of the American Society of Dentistry for Children: 210

Correlation of Traumatized Anterior Teeth to Occlusion: 229

Crying as a Diagnostic Tool: 13

Dental Caries and the Pediatrician: 26

Dentistry for God's Forgotten Children: 161

Discoloration of the Teeth Associated With Oxytetracycline Administration to Premature Birth Children: 69

Drug Dosages for Children by Augsberger's New Rule: 41

Dycal Capping of Exposed Pulps in Primary Teeth: 141

Editorials: 80, 153

Enamel Hypoplasia in Cerebral Palsied Children: 46

Eruption Sequestra in Children: 84

Estimate of the Range of Fees for Selected Pedodontic Procedures in Southern California: 157

Farewell the Tranquil Mind!: 133

Fluoride-Impregnated Cements and Their Effect on the Activity of Interproximal Caries: 87

Formolcresol in Vital and Non-Vital Teeth—A Clinical Study: 239

From Your President: 2, 61, 132, 218

Highlights of This Year's A.S.D.C. Public Relations Program: 168

Index to Volume XXX: 272

Making Patient Education Make Sense: 63

Management of the Early Loss of Primary Molars and Cuspids During the Period of Mixed Dentition: 170

Methods of Preserving Primary Teeth Which Have Exposed Pulps: 219

Officers and Committees of the American Society of Dentistry for Children, 1962-63: 107, 182; 1963-64: 254

Pediatric Aspects of Pedodontics: 50

Pigmentation Associated With Stannous Fluoride Therapy in Teeth Calcified in a Fluoridated Area: 247

Porcelain Baked to Gold in Pedodontics: 9
